Pelco National Defense Authorization Act Compliance/Non-Compliance List

All Pelco products listed on the U.S. government GSA contract are compliant with the NDAA and can be used in U.S. Government-related deployments.

These include:

- All Sarix, Spectra, Optera, Exsite, Esprit, Evolution product line cameras and related accessories.
- All VideoXpert, Digital Sentry and Endura VMS software, hardware, and related accessories.

The following is a complete list of all NDAA non-compliant products offered by Pelco. These products are not and will not be included on Pelco's U.S. GSA contract and are not recommend for U.S. Government applications that are subject to NDAA.

NDAA Non-Compliant Products:

GFC Professional 4K camera product family

- IMV831-1ERS
- IMV831-1RS
- IBV831-1ER

GFC Professional Multi camera product family

- IMD2007-1ES

All other Pelco products not listed immediately above are NDAA-compliant. If you have any questions regarding Pelco products or compliance to the U.S. National Defense Authorization Act, please contact us.
